

# UKA GROUP: DEVELOPING A GREENER TOMORROW, TODAY.

The UKA Group is a leading international wind and solar energy developer across Germany, Europe and the United States. Our expert team around the world is committed to honesty and integrity that landowners and communities can rely on from the project's conception through operations. We have been developing renewable energy for more than 20 years, contributing to climate change solutions. The UKA Group develops, builds, owns and operates wind and solar farms as well as associated infrastructure. It is a private partnership owned by its founders Gernot Gauglitz and Ole-Per Waehling. Founded in 1999, the company is one of the leading German wind farm developers with around 60 wind farms and solar farms\* connected to the grid and an international project pipeline of four gigawatts. At present, the UKA Group employs around 700 people worldwide. As a full-service provider, UKA provides turnkey services up to the handover of the facilities. In addition, our sister company, UKB, provides tailored technical and commercial support for renewable energy facilities. UKA is always expanding its business activities throughout North America, Latin America and Europe. In 2017, UKA opened its North American headquarters in the heart of Stuart, Florida. Now, our dedicated team is driving new and promising renewable energy projects across the United States. UKA's expert team is focused on developing and acquiring utility scale wind and solar energy projects throughout the U.S.

\*includes those partially completed by our partner, unlimited energy GmbH, in which UKA has a majority stake.

## VICE PRESIDENT OF FINANCE

### PRIMARY RESPONSIBILITIES:

- Directly responsible for company-wide accounting and finance processes, systems, and resources.
- Directly responsible for preparation of reporting and financial statements on a regular basis and in accordance with a defined reporting calendar.
- Directly responsible for accounting procedures, to include categorizations, account reconciliations, accounts receivables and payables, chart of accounts, accounting software, and/or managing vendor engagements.
- Directly responsible for ensuring financial records are accurate and in accordance with internal financial policies, controls, and procedures as well as relevant state and federal laws and regulations. Manage and build relationships with external accounting partners and/or consultants that support regular accounting procedures.
- Directly oversee internal transition from cash-basis accounting to accrual-basis accounting by December 31, 2023.
- Coordinates budgeting and financial forecasts across the company, including integrating inputs from internal teams and reconciling with previous plans/forecasts, providing analyses/explanations, and preparing and presenting to Board of Managers.
- Produce and/or oversee monthly and quarterly reporting to internal and external stakeholders to include collaborating with Operations to produce corporate performance reporting.
- Work closely with functional managers and the executive team including the CEO, COO, CRO, and VP of Development.
- Produce bespoke financial analyses and recommendations necessary for executive and/or business unit strategy, to evaluate and/or inform business decisions, and/or assess company performance.
- Participate in capital raising activities.
- Manages corporate checking accounts and invoices and associated banking relationships.
- Leads and/or supports maintenance of employee expense tracking and deployment/use of corporate credit cards.
- Coordinates with Human Resources on any payroll, commission, and/or bonus needs and associated reporting/analysis.
- Serve as direct manager and/or mentor, provide feedback, support professional growth, and make a great place to work day-in and day-out.
- Identify resource needs and actively participate in recruiting team members both within and beyond the Financial and Accounting teams.
- Maintain confidentiality of financial information consistent with the nature of the topic and/or the data involved.

: **KEY SKILLS REQUIRED:**

- 10 – 12 Years of experience in the Finance/Accounting fields, including leadership responsibility for a major project, business unit and/or team
- CPA or MBA is highly preferred
- At least 5 years of management experience
- Infrastructure, Energy and/or Renewable Energy industry experience is highly preferred
- Mastery of Microsoft Excel, Quickbooks, and other financial and accounting softwares, as applicable/recommended
- Effective and thoughtful written and verbal communications; command of presentations, deliverables and communications
- Demonstrated knowledge of quantitative analysis and forecasting methods
- Demonstrated ability to maintain meticulous organization of financial information, communications, resources, and responsibilities
- Comfort with high-pace culture and managing to periodic deadlines
- Serve as a tenured and more senior employee and resource to the entire organization and facilitate getting work completed cross-functionally
